Union Pacific was higher, owing to the declaration of the scale quarterly dividend of 12 per cent., and the report that Blake Bros had negotiated \$1,500,000 new collateral trust bonds. The savance in St. Louis and San Francisco is due to reports that the company contemplates paying dividends on preferred stocks after Joly. Manitoba also was an exceptional feature, being 31 lower in the foreacon than at the close Tuesday, the decline being mainly on account of the decrease in earnings and the probability of a rate war with the Canada Pacific for Winnipeg business.
